Tachikawa No.7 JHS

March 15th

## ★ Visiting Yokota Base ★

On February 11<sup>th</sup>, we visited the middle school in Yokota Base. It was our first time to visit the school. There were a lot of differences between the school of Yokota Base and the schools in Japan. We had a chance to introduce ourselves to Yokota students in English. They also introduced themselves in Japanese. Then we made some Hina dolls by origami together. After that they guided us to look around their school. They led us to many classrooms like Japanese, Spanish, Chinese, English, Computer, Social studies, Science, Library and more.

In science class the teacher let one of our group to see the class. In that class they were doing a science experiment. The experiment had to do with a chicken leg. The teacher explained that the process was picking a chicken leg putting inside of a sugar pot and wrapping it up with paper towels. It was very stinky, but it was an interesting experiment.

Then we joined their P.E. class. We played American Dodgeball with them and we enjoyed it. I noticed that the rules are really different from the Dodgeball we know. We also had a chance to join their fire drill. It was almost the same as our school. Just like we wanted to interact with them, they wanted the same. We liked to have a conversation with them. We talked about a lot of things. We had a wonderful time. We hope that this program will go on.

## Work Experience Program

The second year students had a work experience program from January 19<sup>th</sup> to 21<sup>st</sup>. All the students went to various places, like seven eleven, a movie theater, a police station, malls, and so on. Some worked at nursery schools. The students who went there really liked kids. We asked them how it was and this is what they said; I loved playing with kids, we got the chance to put them to sleep. They were so cute. We are looking forward to working in the future.

## SKIING TRIP

The first year students enjoyed skiing trip on January 17<sup>th</sup>, 18<sup>th</sup> and 19<sup>th</sup>. For some students, it was their first time to ski. They fell and slipped many times but they couldn't stop skiing. Then on the third day, finally all of them became able to ski very well. Gyudon that they ate after practicing was so delicious.

### *The editor's postscript*

How was this news letter? We published this late but we did our best. It was first time for 1<sup>st</sup> year and 2<sup>nd</sup> year to make a news letter. Hope you like it.
