Noh Play at Kodaiji Temple

It was the first time for most of the students to see a Noh play. Kodaiji Temple is a famous temple which Nene, the wife of Toyotomi Hideyoshi built.

This is our teacher, Ms. Miyaki. She wore a Noh costume. She's beautiful, isn't she?

School Trip

The third grade students went to Kyoto and Nara on the school trip. On the first day, we went to Nara. We enjoyed visiting Todaiji Temple. Todaiji was great. We were especially surprised at the size of Great Buddha.

On the second day, we wore kimono and visited many temples. We also enjoyed talking with foreign tourist about Japanese culture. We had a wonderful day.

On the third day, each class visited different places by bus. We really enjoyed our school trip.

Kimono and Kinkakuji are good match.

Where are you from?
What is your favorite
Japanese culture?

Farm Experience

On October 4th, the first grade students went to a farm for work experience. Everyone had a pleasant time on the farm. It was not only pleasant but we learned that farm work is difficult. When the students first saw the farm, they did not think they would sweat so much and food was made there. They felt it was a good opportunity to think about their actions. The first graders thought it was a good chance to see where food is produced and to buy domestic products.

Next year's first grade students should study practical things such as the farm experience.
