No. 10

From English Club

Tachikawa No. 7 JHS
February 18th

The first year students went skiing from January 19th to 21th. We went to Sugadaira in Nagano. It was snowing and the first day was very cold. The beginners always fell down. While piled at the top of the hill, we could slide easily down the hill. At first the beginners wanted to give up, but after practicing they wanted to come to ski again!

We are skiing!

It was very cold in Sugadaira in Nagano prefecture. Sugadaira is the second coldest place in Japan. The skiing area was very beautiful and large. The food at the hotel was also delicious. We enjoyed eating with our classmates. The hotel was also nice. Skiing was difficult at first but we could all enjoy the final day all together.

The skiing trip will always be a good school memory for us. We are looking forward to next year's activities.

Day at work program

(*^_^*)

The second graders had a day at work program from January 20th to 22th. they worked at a supermarket, the recycle center, a work place for the handicapped, a convenience store, a senior citizens care center, and a nursery school.

At the nursery school they played tag with the nursery school children and helped the teachers. The nursery school children's smiles made the second grade students happy. It was a good chance to learn about working hard. The second grade students will work hard in the future. They want make use of the things they learned.

at a convenience store

at a super market

at a nursery school

Visiting Yokota Base

We, the members of English club, visited Yokota Base to meet some American students on February 11th. We looked around the junior high school and had a chance to introduce ourselves in English. And we also enjoyed eating lunch in the cafeteria of the school. It was our first time to use dollars. It was exciting. We want them to visit our school next time.

The editor's postscript

Did you enjoy this news letter? The third graders are going to graduate from our school next month. We hope they will enjoy the rest of their school life! (Risa, Komugi, Ririna, Yuka, Yuka, Miiyu, Suzuka, Maaya, Riko, Riko)
